The purpose of a research methodology is to explain the reasoning behind your approach to your research- you'll need to support collection methods, methods of analysis, and other key points of research work. To determine by what you hope to achieve with your research. To explain your reasoning. To explain your instruments. How to analyze the data. To recognize sampling process.

**OUTCOME**

Demonstrate the ability to choose methods appropriate to research aims and objectives. Understand the limitations of particular research methods. Develop skills in qualitative and quantitative data analysis and presentation  
Develop advanced critical thinking skills. Demonstrate enhanced writing skills.

## Department of Zoology

### 9. Certificate course in Vermiculture and Vermicomposting

<p>M. S. P. Mandal's <b>SHRIMUKTANAND COLLEGE GANGAPUR</b> Dist. Aurangabad (M.S.)-431109</p> <p><b>DEPARTMENT OF ZOOLOGY</b></p> <p><b>CERTIFICATE COURSE IN VERMICULTURE AND VERMICOMPOSTING</b></p> <p><b>INTRODUCTION</b></p> <p>Vermiculture and vermicomposting truly is nature's disappearing act! Using worms to convert decomposing food waste into nutrient-rich fertilizer is simple, inexpensive, energy efficient, and a great way to teach students to become life-long recyclers. Vermicomposting technology is known throughout the world, albeit in limited areas.</p> <p>As a process for handling organic residuals, it represents an alternative approach in waste management, in as much as the material is neither land filled nor burned but is considered a resource that may be recycled. In this sense, vermicomposting is compatible with sound environmental principles that value conservation of resources and sustainable practices.</p> <p>Vermicomposting is akin to composting in that similar feedstock-organic residuals -are used. Both systems utilize microbial activity to break down organic matter in the moist, aerobic environment.</p>	<p><b>OBJECTIVES</b></p> <ul style="list-style-type: none"> <li>• To understand techniques in vermicomposting.</li> <li>• To increase employability on students.</li> <li>• To improve the soil quality by promoting the biofertilizer</li> </ul> <p><b>OUTCOME</b></p> <ol style="list-style-type: none"> <li>1.
